

Hawaii State INBRE Summer Research Program

Checklist

Please assemble the application in the following order.

- Checklist, placed on top of the application form
- Application form completed, including academic record and signed agreement
 - statement of work experience
 - statement of purpose and research plan
- Two recommendation forms (or, two letters of recommendation) from mentors, academic advisers, or university instructors familiar with your science record. Note, recommendations should be sealed with teacher's signature across the seal.
- letter of support from research mentor
- Current transcript(s) (copies are accepted)
- IRB or IACUC approval is required for research projects involving human or animal subjects, respectively. A copy of the project approval form is to be submitted with the application. (if applicable)
